

CERCARBONO FEE SCHEDULE

April 22, 2022

Introduction

This document compiles all the fees related to the products and services offered by the Cercarbono standard, defining the times at which they are requested and the rate corresponding to each fee.

It is necessary that the developers, owners and different market actors to whom the fees apply, are sure to have the latest version at the time of requesting the service to Cercarbono.

This document will be updated periodically with the approval of the Board of Directors, either to modify a rate or to include a new one.

Clarifications

To understand the fee structure of Cercarbono, the following clarifications are required:

- The fees are generated at the time the service is requested from Cercarbono, as opposed to the fees related to the methodologies that Cercarbono must pay to the participants.
- All the rates listed in this document are expressed in U.S. dollars (USD).
- In case of late payment of fees, Cercarbono will block the account in the registration platform until the due payment support is presented.
- If you have any questions about the fee structure, please contact the following email address info@cercarbono.com

Fee Chart

Fee description	Fee	Timing of payments																					
Payment of the different stakeholders to Cercarbono																							
Opening account	Free in the year 2022	It is generated at the time of account creation. The account is not activated until the payment is registered.
