

2023

CERCARBONO FEE SCHEDULE

January 24, 2023

Introduction

This document compiles all the fees related to the products and services offered by the Cercarbono standard, defining the times at which they are requested and the rate corresponding to each fee.

It is necessary for developers, owners and different actors in the market to which the fees apply, to ensure that they have the latest version at the time of requesting the service from Cercarbono or making the payment.

This document will be updated periodically with the approval of the Board of Directors, either to modify a rate or to include a new one.

Clarifications

To understand the fee structure of Cercarbono, the following clarifications are required:

The fees are generated at the time the service is requested from Cercarbono, unlike the fees related to the methodologies Cercarbono has to pay to the participants and the annual fees.

All the fees listed in this document are expressed in U.S. dollars (USD).

In case of late payment of fees, Cercarbono will block the account in the registration platform until the due payment support is presented.

If you have any questions about the fee structure, please contact the following email address info@cercarbono.com

Fee Chart

Payment of the different stakeholders to Cercarbono

Fee description	Fee	Timing of payments
Opening account	200 USD	It is generated at the time of account creation in the registration platform. The account is not activated until the payment is registered.
