Fee Schedule

Introduction

This document compiles all the fees related to the products and services offered by the Voluntary Programme on Circular Economy (VPCE) defining the times at which they are requested and the rate corresponding to each fee.

It is necessary for developers, owners, and different actors in the market to which the fees apply, to ensure that they have the latest version at the time of requesting the service from the VPCE or making the payment.

This document will be updated periodically with the approval of the Board of Directors, either to modify a rate or to include a new one.

Clarifications

To understand the fee schedule of VPEC, the following clarifications are required:

- The fees are generated at the time the service is requested from VPCE.
- All the fees listed in this document are expressed in U.S. dollars (USD).
- In case of late payment of fees, the VPCE will block the account in the registration platform until the due payment support is presented.
- If you have any questions about the fee schedule, please contact the following email address globalzerowaste@cercarbono.com.
